

RL19 Polyclonal Antibody

Reactivity Human;Mouse;Rat Applications WB;ELISA Gene Name RPL19 Protein Name 60S ribosomal protein L19 Immunogen Synthesized peptide derived from human protein . at AA range: 50-130 Specificity RL19 Polyclonal Antibody detects endogenous levels of protein. Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide. Source Polyclonal, Rabbit,IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution WB 1:500-2000 ELISA 1:5000-20000 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms Observed Band 21kD Cell Pathway nucleolus,cytoplasm,cytosol,ribosome,focal adhesion,membrane,cytosolic large ribosomal subunit, Tissue Specificity Brain,Hypothalamus,Liver,Lung carcinoma,Muscle, Function similarity:Belongs to the ribosomal protein L19e family., Background Ribosomes, the organelles that catalyze protein synthesis, consist of a small 40 subunit and a large 60S subunit. Together these subunits are composed of 4 RIW, species and approximately 80 structurally distinct proteins. This gene encodes a ribosomal protein that is a component of the 60S subunit. The protein belongs to the L19E family of ribosomal proteins. It is located in the cytoplasm. As is typical for genes encoding ribosomal proteins, there are multiple processed pseudogenes of this gene dispersed through the genome, [provided by RefSeq,	Catalog No	BYab-05250
Applications WB;ELISA Gene Name RPL19 Protein Name 60S ribosomal protein L19 Immunogen Synthesized peptide derived from human protein . at AA range: 50-130 Specificity RL19 Polyclonal Antibody detects endogenous levels of protein.
