

## CD207 Polyclonal Antibody

Catalog No         BYab-14005           Isotype         IgG           Reactivity         Human;Rat;Mouse;           Applications         WB;ELISA           Gene Name         CD207           Protein Name         C-type lectin domain family 4 member K           Immunogen         The antiserum was produced against synthesized peptide derived from the Internal region of human CD207. AA range:61-110           Specificity         CD207 Polyclonal Antibody detects endogenous levels of CD207 protein.           Formulation         Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.           Source         Polyclonal, Rabbit,IgG           Purification         The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.           Dilution         Western Blot: 1/500 - 1/2000. ELISA: 1/20000. Not yet tested in other applications.           Concentration         1 mg/ml           Purity         ≥90%           Storage Stability         -20°C/1 year           Synonyms         CD207; CLEC4K; C-type lectin domain family 4 member K; Langerin; CD207           Observed Band         38kD           Cell Pathway         Membrane : Single-pass type II membrane protein . Found in Birbeck granules (BGs), which are organelles consisting of superimposed in astrocytoma and malignant ependymoma, but not in normal brain tissues. <t< th=""><th></th><th></th></t<>		
Reactivity Human;Rat;Mouse;  Applications WB;ELISA  Gene Name CD207  Protein Name C-type lectin domain family 4 member K  Immunogen The antiserum was produced against synthesized peptide derived from the Internal region of human CD207. AA range:61-110  Specificity CD207 Polyclonal Antibody detects endogenous levels of CD207 protein.  Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.  Source Polyclonal, Rabbit, IgG  Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution Western Blot: 1/500 - 1/2000. ELISA: 1/20000. Not yet tested in other applications.  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms CD207; CLEC4K; C-type lectin domain family 4 member K; Langerin; CD207  Observed Band 38kD  Cell Pathway Membrane : Single-pass type II membrane protein . Found in Birbeck granules (BGs), which are organelles consisting of superimposed and zippered membranes.  Tissue Specificity Exclusively expressed by Langerhans cells. Expressed in astrocytoma and malignant ependymoma, but not in normal brain tissues.  Function function: Calcium-dependent lectin displaying annose-binding specificity, Induces the formation of Birbeck granules (BGs), which are organelles consisting of superimposed and calciundes the formation of Birbeck granules (BGs) is a potent regulator of membrane superimposition and zippering online information: Langerin similarity: Contains: 1 C-type lectin domain, subscellular location: Found in Birbeck granules (BGs), which are organelles consisting of superimposed and zippered membranes, tissue specificity; Exclusively expressed by Langerhans cells.  Background The protein encoded by this gene is expressed only in Langerhans cells which	Catalog No	BYab-14005
Applications WB;ELISA  Gene Name CD207  Protein Name C-type lectin domain family 4 member K  Immunogen The antiserum was produced against synthesized peptide derived from the Internal region of human CD207. 	Birbeck granules, organelles present in the cytoplasm of Langerhans cells and consisting of superimposed and zippered membranes. It is a C-type lectin with mannose binding specificity, and it has been proposed that mannose binding by this protein leads to internalization of antigen into Birbeck granules and providing access to a nonclassical antigen-processing pathway. Mutations in this gene result in Birbeck granules deficiency or loss of sugar binding activity. [provided by RefSeq, Aug 2010],
matters needing attention	Avoid repeated freezing and thawing!
Usage suggestions	This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
