

MIP-1α Polyclonal Antibody

Catalog No BYab-15950 Isotype IgG Reactivity Human;Rat;Mouse; Applications IHC;IF;ELISA Gene Name CCL3 Protein Name C-C motif chemokine 3 Immunogen The antiserum was produced against synthesized peptide derived from human MIP-1alpha. AA range:26-75 Specificity MIP-1a Polyclonal Antibody detects endogenous levels of MIP-1a protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit,IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution IHC: 1/100 - 1/300. ELISA: 1/20000 IF 1:50-200 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C1 year Synonyms CCC3, GOS19-1; MIP1A; SCYA3; C-C motif chemokine 3; GO/G1 switch regulatory protein 19-1; Macrophage inflammatory protein 1-alpha; MIP-1-alpha; PAT 464.1; SIS-beta; Small-inducible cytokine A3; Tonsillar lymphocyte LD78 alpha protein Observed Band Enrich Language Specificity Brain, Leukocyte, Lymphocyte, Natural killer cell, T-cell, Function function: Monokine with inflammator

	form LD78-alpha(4-69) is produced by proteolytic cleavage after secretion from HTLV1-transformed T-cells.,similarity:Belongs to the intercrine beta (chemokine CC) family.,subunit:Self-associates. Also heterodimer of MIP-1-alpha(4-69) and MIP-1-beta(3-69).,
Background	This locus represents a small inducible cytokine. The encoded protein, also known as macrophage inflammatory protein 1 alpha, plays a role in inflammatory responses through binding to the receptors CCR1, CCR4 and CCR5. Polymorphisms at this locus may be associated with both resistance and susceptibility to infection by human immunodeficiency virus type 1.[provided by RefSeq, Sep 2010],
matters needing attention	Avoid repeated freezing and thawing!
Usage suggestions	This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
